PROJECT MANAGEMENT SKILLS

Project Co-ordination & Execution Control
Construction Scheduling & Progress Tracking
Subcontractor & Supplier Co-ordination
Inspection & Authority Approval Co-ordination
RFI and Technical Clarification Handling
Snagging & Handover Management
Resource Planning & Site Sequencing
Variation Identification & Reporting
Project Documentation & Reporting

TECHNICAL SKILLS

AutoCAD (Review & Markups)
MS Excel (Progress Tracking)
Site Documentation & Reporting
Drawing Interpretation
Quantity Verification

PROFILE

Civil Engineering professional with 7+ years of experience in UAE and India delivering villa construction and high-end residential fit-out projects from execution through handover. Proven track record in subcontractor management, commercial coordination, interim payment applications, variation control, and timeline management.

Currently leading luxury villa fit out works as Main Contractor representative, overseeing multi-trade execution, consultant coordination, NOC processes, and progress reporting. Experienced in bridging technical execution with commercial control, ensuring projects are delivered within planned time, cost, and quality parameters.

Actively transitioning into a formal Project Management role with strong site leadership, commercial exposure, and stakeholder coordination experience.

WORK EXPERIENCE

Project Engineer | Acting Project Lead

Duagh Design And Build LLC 2025 - Present

- Acting as Main Contractor representative for luxury villa fit-out project
- Leading end-to-end execution of high-end architectural and interior works through handover stage
- Managing subcontractors across joinery, gypsum, flooring, MEP, decorative finishes, and external works
- Preparing and tracking master schedule and short-term lookahead plans to maintain workflow
- Coordinating authority NOCs and consultant approvals related to fit-out scope
- Reviewing shop drawings and resolving design-to-site conflicts during execution
- Supervising quality control, inspections, snagging, and handover readiness
- Generating daily and weekly progress reports for senior management
- Supporting cost optimization through scope control and material utilization planning

Project Engineer - Fit Out Lead (Apartments)

A-Space Technical Services LLC 2024 - 2025

- Led execution of residential apartment fit-out projects from demolition to final handover
- Prepared and submitted interim payment applications and variation claims
- Reviewed and approved subcontractor invoices based on site progress verification
- Monitored project cashflow alignment with execution progress
- Coordinated joinery, gypsum, MEP, flooring, and finishing trades to maintain sequencing
- Controlled material approvals, shop drawings, inspections, and snag closure
- Implemented timeline tracking and delay mitigation strategies

EXPERTISE

- Develop project plans, prioritize tasks, and allocate resources efficiently to meet tight deadlines. Ensure projects are on time and within budget through clear communication and strategic management.
- Lead diverse teams with a motivating approach, resolving conflicts, setting clear goals, and conducting consistent performance evaluations to foster a positive work environment.
- Identify potential challenges like delays or resource shortages, and develop effective solutions to keep projects on track.
- Guide teams through transitions and adapt to evolving project requirements, ensuring adherence to regulatory standards and performance optimization.

WORK EXPERIENCE

Project Engineer

Tri Lines Contracting LLC, Dubai, UAE

2022 - 2024

- Executed villa construction projects from excavation through finishing and handover
- Coordinated structural, architectural, and MEP works to maintain construction sequence
- Monitored progress against baseline schedule and followed up responsible parties to avoid delays
- Managed inspection requests and consultant approvals prior to concrete, blockwork, and finishing works
- Reviewed drawings and site conditions to resolve RFIs and execution conflicts
- Supervised subcontractors and site teams to maintain daily productivity targets
- Assisted procurement by aligning material deliveries with site readiness
- Reported site progress and issues to senior management

Senior Site Engineer

NexGen Constructions, India

2021 - 2022

- Implement strict quality control procedures, conduct inspections, and consistently uphold high-quality standards, resulting in client satisfaction and minimal rework.
- Successfully develop and oversee project schedules, ensuring on-time, on-budget project completion, leading to efficient project delivery.

Site Engineer

ATPSYLAB, India

2019 - 2021

- Effectively oversaw and managed day-to-day construction activities on-site, ensuring adherence to project plans and specifications.
- Implemented quality assurance measures and conducted regular inspections to guarantee that construction work met high standards and complied with design requirements.
- Proficiently interpreted and translated engineering blueprints and design drawings into practical on-site tasks for the construction team.

Site Supervisor

G.T. Constructions, India

2017 - 2019

- Effectively managed and supervised construction sites, ensuring that work progresses according to project plans and specifications.
- Led on-site construction teams, motivating and directing workers, subcontractors, and tradespeople to achieve project objectives.
- Proficiently interpreted engineering blueprints and design drawings, providing guidance and direction to the construction team to execute the project accurately.
